SIMPLY EFFICIENT

ECO NEXT ONE HYBRID
PROMO \$4,753

EEAC820B
 R-134 Hybrid AC Machine
 REG. \$5,167

ECO NEXT ONE HFO
PROMO \$6,128

EEAC830B
 R-1234YF Hybrid AC Machine
 REG. \$6,661

The ECO NEXT ONE is a flexible and specialized machine that provides quick and easy A/C service with fully automatic setup and guided operation for users without specific training in shops that service both HYBRID and CONVENTIONAL vehicles.

Designed with a patented cleaning procedure that is thoroughly verified and certified by ETL according to SAE Standards, the ECO NEXT ONE cleans the hoses to remove any trace of oil

that could contaminate the System and the Compressor, for convenient A/C recycling service.

Key features include:

- Workflow status light indicator
- Integrated thermal printer for service reports
- Automatic discharge of non-condensable gas purge

GM ACX2286 R1234yf AC Service Machine - ESSENTIAL

MODEL NO. RTI4608046600

The ArcticPRO® ACX2286 R1234yf Refrigerant Handling System offers the ultimate in refrigerant recycling machines. This unit delivers a unique service door that is ergonomic in its design and an intuitive, state of the art user interface providing an optimal environment for fully automatic A/C service and simple unit maintenance.

- Bright 7" capacitive touch screen and intuitive user interface
- Easy to see in any lighting condition. Machine status and maintenance item status instantly visible on screen
- Context sensitive information makes it easy for technician to perform necessary tasks with minimal training
- Status Indicator - LED light indicates status visible from anywhere in the workshop
- Large flashing multi-color machine operation indicator visible for hundreds of feet away lets everyone no the AC machine is operating normally or may need attention. Eliminates having to babysit the AC machine during service
- Smart - iOS and Android capable phone app allowing remote service session mirroring and Push Notifications
- Technician initiating the AC service can monitor the status and progress on the the AC service from miles away, allowing other vehicle work to be performed during an AC service
- VIN READ - Integrated vehicle communication interface to read VIN
- Quickly and accurately transfer VIN from the vehicle to the machine to be able to generate the Warranty Code
- Best in Class Serviceability - New ergonomic hinged service door simplifies unit service

NEW PARTS STORAGE!

Featured Parts Storage Solutions will be on **PROMOTION** for 2nd Quarter. Request a quote today!

MODULAR DRAWERS IN SHELVING

36" Wide Shelving with Beaded Posts

The combination of metal shelving with drawers offers the perfect storage solution. You can store both small parts and bulky items in one place!

Pre-engineered units are available in either 18" or 24" depths. The closed 2000 Series shelving units feature beaded posts in the front allowing clear shelf access.

Modular drawers in shelving are easy to install using only four brackets. Suspension glide rails lock into brackets, then the drawers slide into place.

- Overall size: 36" x 85" h
- Closed shelving with beaded posts in front, angle posts in rear
- Shelves feature capacity of 500 lbs. and are adjustable on 1-1/2" centers
- Shelving uprights, back, and shelves are Dove Gray
- Modular drawers feature capacity of 400 lbs. and fully extend

Choose from Starter and Add-on units or build your own!

Modular drawers fully extend for 100% visual and physical access. Easily reposition layout kit dividers as needed.

ADJUSTABLE WORKBENCHES

Introducing the pinnacle of versatility & functionality in the world of workbenches - the Adjustable Workbench.

Engineered to adapt to your unique requirements, this workbench is designed to enhance your workspace efficiency and comfort. This durable workbench will last for years to come.

Precise Height Adjustments

Whether you're sitting or standing, this workbench adapts easily to your preferred working posture with a remarkable 12" range of height adjustment.

Customized Options

Choose from the following:

- Available in 60" or 72" widths (additional widths offered with custom quote)
 - Hardwood or stainless steel worktops
 - Add a drawer with keyed lock (18" W X 18" D X 6" H)
 - Add up to two lower shelves (12" depth each) for additional storage space
 - Additional accessories are also available (risers, stringers, back & end stops, or additional pair of legs)
 - Colors: Red, Royal Blue, Black, and Dove Gray.
- Dove Gray is a "quick-ship" option!**

Workbench height range: 32.25" - 44.25"

Choose from hardwood or stainless steel worktops. Add a drawer and lower shelves.

CHOOSE FROM 4 STANDARD COLORS. Red, Royal Blue, Black, or Dove Gray.

For all other colors, please call the Build-A-Bay Hotline for a custom quote.

For layout designs or additional component options, contact a Build-A-Bay Representative for assistance.

Call 1-844-742-8471 and ask to speak with a Build-A-Bay representative.

GMDE Quick Service Complete Tool Kit and Cart

MODEL NO. MCOGMJSC450K

Reg. \$4,653

GMDE Quick Service Tool Kit and Sapphire Blue Matco 3-Drawer Tool Cart includes all the most popular tools to complete Quick Service. The mobile, lockable cart keeps them organized and accessible, and safe when not in use.

FEATURES:

- GMDE Complete Tool Kit from Matco - more than 80 of the most popular Quick Service tools.
- Heavy-Duty Service Cart stores 80+ tools (included) and is built to withstand the harshest work environments so your investment will serve you well for many years to come.
- Durable bumper system protects vehicles and other objects around the shop.
- Lid accessory has built-in pry bar/screwdriver rack for added convenience.
- Unibody Case Construction — the fully-welded Center Shelf and Interior Vertical Wall tie the structure of the box together and ensure the Matco toolbox is square, sturdy and stable.
- Structural Corner Posts — the 16-gauge steel posts have multiple 90° angles to increase the load-bearing capacity of the Matco toolbox.
- Double-Wall Construction — each double-wall of the Matco toolbox is internally reinforced with vertical L-channels to increase the load capacity and rigidity of the box to ensure it never cracks or distorts over time.
- Drawer Construction — the drawers and slides are fully-integrated into the toolbox case design. An added channel support and over 20 bends in the steel of each drawer make each strong, durable and rigid.
- Upgraded side handle for easy maneuvering.
- For added protection, Service Cart, Lid Accessory and Drawer Accessories come with a nice top mat.
- Four (4) 6" x 2" casters, two swivel and two fixed, and Matco's high security locking system.

K1700 Power Train / Battery Split Hydraulic Lift Table

MODEL NO. KLS6227500

K1700 Power Train / Battery Split Hydraulic Table Lift features a sliding split tabletop with jig style mounting holes for various types of mounting adapters. This design allows for separation of engine / transmission assemblies. The jig style mounting and tilting alignment is also used for removal of sub frames, rear differentials, suspension systems, fuel tanks and hybrid / EV battery systems.

- Fast / smooth action
- Caster wheels for easy maneuverability
- Powered by a 110v hydraulic pump that rests nicely inside the frame
- Heavy-duty dual scissor lift has a lifting capacity of 1,700 lbs., and is controlled by a magnetic based remote control
- Includes proprietary features like built in automatic safety locks and dual 110V outlets

PRICE:
\$6,839
 KLS6227500

Specifications

- Maximum Height: 70"
- Minimum Height: 21"
- Slide Table Length: 50 - 58"
- Table Width: 31"
- Weight Capacity: 1,700 lbs.

NEW! OPTIONAL ACCESSORY:

KLS6277521- Power train adjustable mounting adapters Reg. \$919

Dominator Low Profile Extended Auto Floor Jack

MODEL NO. KLS359775

This revolutionary floor jack was especially designed for vehicles with special front center lifting point behind the engine and vehicles where the lift point is inline with front axle, which requires an extra long and low floor jack. The ultra low-profile design (2.75" lifting pad to ground) allows the dominator jack to also take on vehicles with low ground clearance.

- Low profile design with the lifting pad to the ground at 2.75"
- Extended design for long reach at 47" in length
- Wide stance and low center of gravity provides optimum stability under load stress
- Universal joint release mechanism provides precision control of load descent in any handle position
- An exclusive designed breather plug eliminates air in the hydraulic system, optimizing jack performance

PRICE:
\$748
 KLS359775

Specifications:

- Capacity: 1.5 Ton
- Min Height: 2.5"
- Max Height: 16.5"
- Length: 47"
- Front Wheel Base: 10.75"
- Rear Wheel Base: 17"

For assistance with lift selection, contact your local GMDE Fixed Operations Consultant. See page 16 for contact info.

WARRANTY SOLUTIONS

CLAIMS PROCESSING

Trust j|warranty's experienced team to administer your warranty transactions. Our claims processing service strengthens your warranty operations from the assignment of accurate labor codes to alerting you of policy concerns. We work closely with your service personnel to get claims submitted and paid accurately, according to GM Service Policies & Procedures.

NEWSLETTER + ONLINE TRAINING

The most extensive package of GM warranty information, training, and support. The Warranty Administration Program takes important warranty information, combines it with our warranty claims processing experience and summarizes it into easy-to-understand, newsletters, training videos, interactive forums, publications, quick look-up tools, and so much more!

TRAINING SEMINARS + WEBINARS

We host one-day in-person training seminars in cities across the US as well as virtual webinars to get your team up to speed. Attendees will gain tips that will expedite claim payment and reduce rejects! An excellent environment for attendees to network with other warranty professionals from around the nation and learn from the best in the industry.

JOB CARD STAMPS

Our stamps bring attention to the important details for many different warranty transactions. These easy to use, time saving stamps have been designed to promote compliance by always providing the required key elements. *Stamp Examples include: Concern Not Duplicated, Authorization, Added Operation, Courtesy Transportation, Major Assembly Replacement, and more.*

MAXIMIZE WORK FLOW

INCREASE TECHNICIAN PRODUCTIVITY

We do it with our proven 5-step process.

We begin with a consultation, where we help define your needs and goals. Then we create a custom design, using your information to craft an achievable solution. After presenting a detailed proposal, we manage all delivery and installation of your new equipment and then follow up with ongoing support to ensure you have a successful and profitable operation.

Let us walk you through the process.
